Batteries and Shore Guns De stroyed-As Usual American Ships Escaped Without a Scratch.

THE SPANISH FLEET SAILS

Commodore Dewey's Actions Anx lously Awaited - Battle **Expected Tomorrow** or Sunday.

Washington, April 29 .- The latest reports of the bombardment of Cardenas yesterday show that the damage done was more than at first thought. The shore batteries of the Spaniards are completely demolished. It is now known that thirty Spaniards were killed and perhaps more.

The principal damage was done by the New York. The bombardment again demonstrated the excellence of the marksmanship of the American gunners, and the defectiveness of Spanish marksmanship.

Key West, April 29 .- The American fleet bombarded Cardenas yesterday. This is a city on the coast 50 miles east of Matanzas. The New York and the Cincinnati shelled the batteries at Cardenas and destroyed their shore guns. As in the Matanzas bombardment the ships were totally unharmed. The extent of the damage done is not yet known.

Washington, April 29 .- An official bulletin says shat the Spanish fleet sailed today from Cape Verdeislands. Its destination is unknown.

## INVASION OF CUBA.

Washington, April 29-A rather striking sign of the imminence of the invasion of Cuba was contained in the chartering yesterday by the war department of eight large steamers with an average passenger carrying espacity of from 500 to 1200 each. These will be used as transports for the conveyance of the first military expedition to Cuba. The boats are the Florida, Olivette, Aransas, Comel, Malamo, Allegheny, Berkshire, Decatur Miller.
